MESSAGE FROM THE CHAIRPERSON

Dear faculty & non faculty members, and my dear students,

Greetings of the day!

We have gathered on this platform to witness the progress our college has attained during the forgoing academic year 2019-20. Today, in light of the worst survival crisis ever faced in human history that is being braced by the world, I would like to put focus on how to make progress happen amid this testing time not just in the forthcoming year, but also in the years to come. Someone rightly once said that *'the attitudes & choices you make today build the houses that you live in tomorrow'*. The grave situation our world is in at present due to the COVID-19 pandemic, downtown is real and it has become individual responsibility of each person & organization to take serious, corrective actions on their part so as to make this planet safe and secure. I take pride to say that our entire Aditi family inclusive of teaching staff members, non-teaching staff members and students have come together and helped each other nurture & grow at these turbulent times, strengthening the existing bond of mutual trust & respect. I am glad to say that with changed academic and administrative work cultures to online mode, everyone is contributing to their maximum to uphold the academic competency and efficiency that has always defined our campus environmental structure. At our college, we seek to achieve holistic development of students which not only prepares them for economic & professional prosperity, but also teaches them how to live a happy & contented life while facing life's challenges. Past year has been no exception to the same, as we witnessed our college growing from pillar to pillar with students and staff members actively engaged in organizing and participating in numerous national & international conferences, cultural exchange, community development programmes and other activities which extend beyond academics. Similar accolades were achieved in co scholastic activities like sports & theatre as well. I am sure that with undaunted efforts and spirit of the staff and students, our college will continue to grow and shine bringing a hope to many who look up to us for nurturing their untapped potential. In final words, I wish safety, health and abundance for all.

Thank You
