

DEPARTMENT OF COMMERCE

Short Term Course - Cyber Security Essentials

The Department of Commerce had introduced a 30 hour short term course “ Cyber Security Essentials” for the students, faculty members and non faculty members during March 2022. The course was introduced in collaboration with N.I.I.T. Foundation as training partners and the modules were conducted in online mode. The course was started as an extension of the M.O.U. signed between the N.I.I.T. Foundation and our college for various other programs initiated on similar lines.A total of 40 students and faculty members benefitted from the course. The course has been specifically designed to equip the learners with various practices both good and bad associated with cyber space that is the networking platform for most of the trades in present times. Almost all of our personal, professional and financial information is present in cyber space within access to many individuals who might mis use it. So, it becomes indispensable to be aware of various laws and techniques to protect one self from mal practices associated with cyber space.

 Corporate Social Responsibility Cisco Networking Academy

Certificate of Course Completion

Introduction to Cybersecurity

For completing the Cisco Networking Academy® Introduction to Cybersecurity course, and demonstrating the ability to explain the following:
