## **The Programme: B.A.(Hons.) Social Work**

The main purpose of the Undergraduate Programme in Social Work is to develop and disseminate knowledge, skills and values through education, field training and research necessary for promoting, maintaining and improving the functioning of individuals, families, groups, organizations and communities existing in the society. The programme is strongly committed to a diverse learning environment. The Course inculcates respect, dignity and worth of all human beings and understanding of diverse conditions.

## **Aims of the Programme**

- To impart training in professional social work in order to develop human resources having competence to work with individuals, groups and communities for the promotion of welfare and development.
- To develop competencies with knowledge, skills and attitudes required for social work interventions.
- To develop the students as professional social worker with sensitivity towards social concerns and problems through inculcation of democratic and humanitarian values.
