Some of these Heritage, we inherit through transmission of knowledge by travellers like Hiuen Tsang and some are in possession of other countries through loot. It was enlightening to see through PPT presentation, various art forms reinforcing the idea of antiquity like creation of Antiquarium at Munich. It was also insightful to see that how translation of one architectural form had been done in different civilizations like Iron Capital of Sarnath.

The lecture was followed by a very interactive session in which students enthusiastically asked questions and get benefited with her expertise.
