## Decoding Disabilities in Children

(A collaborative initiative of HDFE Departments of Aditi Mahavidyalaya and Janki Devi Memorial College)

In India 1.7% of the total child population comprises of children with disability. Three-fourths of these children with disabilities are in the age group of early childhood years and one-fourth between 5-19 years. There are challenges in their early detection and school enrolment. These challenges are more to do with reasons as people not aware of their needs or not being able to adapt or accommodate for them than their disability. Passage of numerous laws as PWD Act, RTE will not reap benefits, till the attitudes towards them are addressed. This includes the attitudes of teachers towards including the children with disabilities and the attitudes of parents towards schools ability to address their child's needs. It is time we all decode disability as diversity in human form and understand the potentials that children with disabilities have. What they need is not always our sympathy but an equitable chance to ensure everybody achieves their full potential. In this spirit, the Human Development and Family Empowerment Department of two esteemed colleges of Delhi University namely Aditi Mahavidyalaya and Janki Devi Memorial College came forward to collaborate and conduct a certificate course to sensitize students and faculty involved in their colleges and other colleges offering similar UG programmes on this issues. The forte of this course was also that there were no course fees, keeping in mind the financial constraints during the Co-vid period. An effort was to keep the students engaged and compensate for their field work exposure in the area of disability which was difficult to be completed during restrictive or lockdown period prevailing due to the pandemic. Fifteen sessions for more than thirty hours were held by resource persons from varied backgrounds such as rehabilitation professionals, medical experts, academicians, parents, research scholars and all those actively involved with these concerns. The different lectures covered topics ranging from understanding the diverse needs of children with disabilities,

reimagining disability, educational provisions, capacity building, understanding lived experiences and role of family and community in bringing about a change. The resource persons brought to the sessions their varied and in depth experience and expertise. The popularity of the course could be judged by student attendance that reached 100 in most sessions on the virtual platform of Google meet. The deliberations benefitted the students; improving their knowledge base besides sensitizing them on the deep seeded issues as could be interpreted from the feedback forms generated for each session. The course was culminated by an objective test of all the participants and valedictory. The results were shared with the participants and a short video based on the various sessions was previewed. The faculty from other colleges and students provided feedback on the course and a vote of thanks was extended. E certificates were provided to participants with stipulated attendance and test performance.

## MESSAGE FROM THE PRINCIPAL

It gives me immense pleasure to state that at Aditi Mahavidyalaya we always facilitate the students to learn beyond classrooms. A Certificate Course in Decoding Disabilities in Children is yet another such Endeavour. It is a first time that college is offering a course related to a significant issue of disabilities in young children. The course is also unique as it was conducted without any financial involvement and was in collaboration with yet another esteemed college JDMC. It was a comprehensive course looking at diverse aspects related to disability such

as understanding their needs, educational provisions, capacity building and role of family or community in bringing about a change. I attended a few sessions and was impressed by the way the resource persons could reach out the students even during the Co-vid times and the intensive inputs they could provide from their experiences in the field. My deepest congratulations to Dr Reema Lamba for initiating this course on such a relevant and unique issue. I wish to express my gratitude to the JDMC team for joining us in this Endeavour. I wish more such collaborations and courses happen to bring the best in our students.

Minutes of meeting with Team Udaan held as per schedule

Time: 12:30 pm

Date: 17 July 2021

Venue: Principal room

Agenda: Discussion on modalities to launch project UDAAN

Meeting attended by:-

Dr. Mamta Sharma (Principal)

Dr. Neelam Rathi

Dr. Pooja Khanna

Dr. Beena Antony Reji

Dr. Hema Gupta

The team deliberated on the details of the project udaan and conducted the following:

• The college would launch two online certificate courses in July 2021. The following courses were approved:

1. Creative writing
2. Academic Research Writing

• The payment of the courses @ 10000/- per course would be directly made through the students fund in the college.

• Around **80** plus students per course are targeted. So, Creative Writing course would be coordinated by Dr. Hema Gupta and Ms. Lowely and Academic Research Writing course by Dr. Beena Antony Reji and Ms. Manisha Pal

• The college would only facilitate the functioning and coordination and all other jobs would be undertaken by UDAAN representatives.
