of B.El.Ed has a paper on “Gender and Schooling”; Department of Political Science offers a paper on “Human Rights Gender and Environment”; Department of English offers paper on “Women and Empowerment in Contemporary India”.

Aditi Mahavidyalaya is one of the two colleges of University of Delhi that offers Bachelor of Social Work (Honours) course to students. The Department through its syllabus tries to develop sensitivity towards gender related issues. There are number of papers which focus on developing understanding about gender-based issues among students. The course also deals with the various legislative measures that are available for ensuring gender equality in society. The programme focuses on developing the students to be professional social workers who are sensitive towards gender related problems. The aim is to develop professionals with democratic outlook and humanitarian values. The Department organises webinars, lectures on women related issues that have been plaguing the society. The students of Department are placed in various government and non-governmental organizations for their fieldwork as a part of the curriculum.

Aditi Mahavidyalaya is one of the eight colleges of University of Delhi that offers a four year integrated Bachelor of Elementary Education to students. The programme gives exposure to the students to school cultures and practices. There are different constitutions of schools at primary and upper primary levels like single-sex or co-educational schools where students get a reflective understanding about gender as an active component contributing to the teaching learning process. Students are trained through theory and practice to understand and reflect upon gender dynamics in education and how to address these disparities in education in order to minimize this difference or gap which is leads to unequal educational opportunities for boys and girls; and also, to third gender.

The syllabus is designed in a way where students get exposure to various prevalent stereotypical socio-cultural practices reinforcing certain gender norms and how they influence schooling and impact the personality and schematic processing of young children. When students are placed as interns in school, they observe the school cultures promoting hetero normatively and construct feminist critique to explore gender- responsive pedagogical approach in class rooms.
