- (i) Solid Waste Management
- (ii) Liquid Waste Management
- (iii) Waste Segregation
- (iv) Triple R Policy
- (v) E- Waste Management

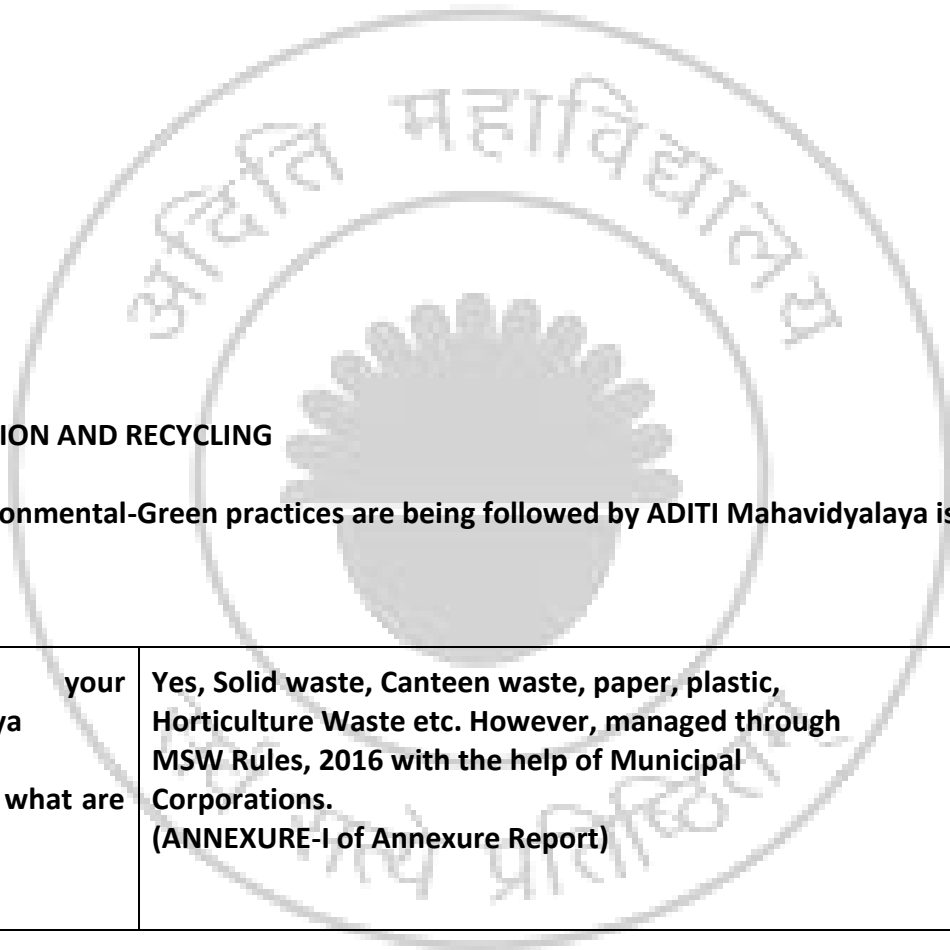

Response

The Institution has a planned design to accommodate innovative flexible adjustments in its functioning to **manage the resources safely and useful reuse** along with **socially committed disposal to upend the carbon footprints**. The age-old knowledge of **keeping one's house in order** for collaborative progress of humanity has been carried over in this Institution for more than two decades.

Solid Waste Management

The institution has installed “**Blue and Green**” colored dustbins distinguishing the **Dry & Liquid Waste**. The institution has also purchased the **Eco-friendly waste composting technology bins** at **4 different locations** inside the college premises. The Eco-friendly waste composting **system decomposes the natural wastes** (for example: dry leaves, rotten fruits, peel of fruits, etc.) into **manures** in just 30-45 days.

The Institution houses academic buildings, recreational areas with a **well operational drainage system for solid waste** management within the campus.

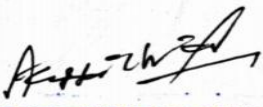

Liquid Waste Management

Green Bins are installed in the college premises where **Liquid Waste** is thrown / dumped. College **ensures** the wastes are segregated into dry & wet wastes by ensuring the Green & Blue colored dustbins are installed in the college area.

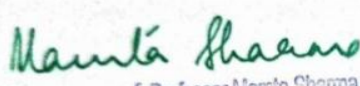

The **liquid waste source** on the campus is diverted for beneficial purpose of **irrigating the trees**.

Waste Segregation

The Institution **segregates the waste generated into organic and inorganic**. The **biodegradable wet wastes generated** are utilized for **vermin compost organic manure**.

The **Non- degradable waste** like plastic based sanitary products are gradually being **replaced with eco-friendly materials** in the Institution.

The **dry waste** like paper is handed over to **scrap dealers** to recycle.

Triple R Policy

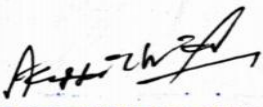

Today the Institution is on the pathway to **reduce reuse recycle philosophy** of the green protocol and has established methods to generate less plastic and paper using biodegradable and renewable materials for use within the campus.

E- Waste Management

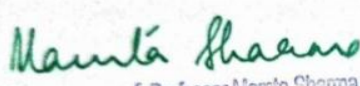

The institution ensures the **optimum utilization** of the electronic devices (for example laptops / desktops installed). Also, it is ensured that the **plastic / electronic devices are not burnt / dumped** in the farming areas. But, all the e-wastes are dumped as per the guidelines of the **Ministry of Environment, Forest & Climate Change** (E-waste Management Rules, 2016).

Rapid growth of technology and technical innovations not only transformed human lives but also degraded their health and coping mechanisms by leaving huge E-waste dumps in our country. With this issue as our core concern, Prof. Mamta Sharma, Principal, Aditi Mahavidyalaya organized the first National U.G.C. Sponsored National Conference on **“E-Waste Management & Swachh Bharat Mission”** on 10th April, 2019 by the Department of Environmental Studies at University of Delhi.

The event facilitated opportunities for networking, collaboration and exchange of ideas with renowned experts in e-waste management & recycling, research and development

and aimed towards sustainability of environment and common resources. Around 200 eminent speakers from Ministries under G.O.I., leading academic scientists, researchers and scholars in the domain of interest from around the country to share their expert knowledge, information and best practices, and build strong vision for the future.

The E-waste collection centres constituted at departmental level generated an enthusiastic response from our students and neighbourhood to this novel initiative for a green environment.

Waste Management steps including:

Department of Commerce also organized “**Art Galleria**” event during 2017-18 academic year, the theme was “**Best out of Waste**” where the students prepared Eco-Friendly products using Waste Materials.

B. El. Ed. department has given a chance to students under the arts and craft to make things from the waste material.

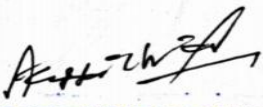

The institution organizes event for best out of waste for students of the social work department, B.A. programme and B. El. Ed. in which students show their creativity by reshaping and selling them.

Water Recycling System

The Institution has a **well-organized water recycling system** conserving water available through natural sources like rain and groundwater to preserve it for the future.

The **rain water harvested** through pipes and channels is collected. The effective **perennial stagnant water body** ensures a well **replenished groundwater table** the campus and neighborhood.

The college campus has areas that have been made especially for the Rainwater

harvesting and its utilization within the campus. The college made the following efforts for the rainwater harvesting –

- Separate place is kept / maintained for Rainwater harvesting and is functioning throughout the year.
- The places are maintained, cleaned especially in the rainy season so that the rainwater can be stored & utilized for different purposes inside the college.

The stored Rainwater is utilized for gardening purposes, watering the plants & fields (playground area).

The creation of **Compost Pits** in the campus and ongoing efforts towards **Rain Water Harvesting** are our ongoing efforts.

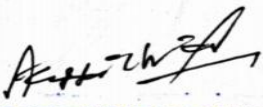

The Rain Water Harvesting arrangement has been made on the rooftop of library building and new block.

Hazardous Chemicals Management

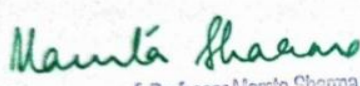

The Institution through its chemistry laboratory handles **hazardous chemicals** which are safely disposed through **deep pits** with adequate **measures to prevent leaching** on campus.

IV -WATER USE & ITS CONSERVATION

The following Environmental-Green practices are being followed by ADITI Mahavidyalaya is as below:

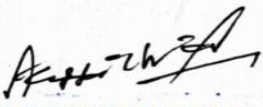

1	What are the sources of water in the Aditi Mahavidyalaya?	1) Supply from Delhi Jal Board; 2) Groundwater; 3) Rainwater Harvest. (ANNEXURE-IV of ANNEXURE REPORT)
2	List uses of water in your Aditi Mahavidyalaya?	1. Drinking 2. Gardening 3. Kitchen and Toilets 4. Washroom and Construction. (ANNEXURE-III of ANNEXURE REPORT)
3	Daily quantity of water use per day?	In working days= 3500 litres per day (ANNEXURE-IV of ANNEXURE REPORT)
4	How does your Mahavidyalaya store water? Are there any water saving techniques followed in your Aditi Mahavidyalaya?	Overhead water tanks and underground water tanks installed for storage of water. (ANNEXURE-IV of ANNEXURE REPORT)
5	Are there signs reminding students/staff to turn off water taps?	Yes

6	Write down ways that could reduce the amount of water used in your Aditi Mahavidyalaya and is being practiced.	<p>Basic Four ways:</p> <ol style="list-style-type: none"> 1. Close the taps after usage; 2. Maintenance and monitoring of valves in supply system to avoid overflow, 3. Maintain leakage and spillage; 4. Water Conservation awareness for students. <p>(ANNEXURE-IV of ANNEXURE REPORT)</p>
7	Water use from the Mahavidyalaya water meter for one year? And annual water charges paid for water uses?	<p>1260 units (Approx.), per annum. Rs. 156226 per year (ANNEXURE-IV of ANNEXURE REPORT)</p>
8	Does your Aditi Mahavidyalaya harvest Rainwater?	<p>Yes, modern rainwater harvesting systems are available. One rain water harvesting unit of about 20,000 lit water capacity has been installed in Mahavidyalaya premises. (ANNEXURE-IV of ANNEXURE REPORT)</p>
9	Is there any water recycling system or treatment of water?	<p>No</p>

UGC Funded Conference on Water Scarcity and Sustainability: A Jal Shakti Abhiyan Perspective

**UGC Funded National Conference
Water Scarcity and Sustainability:
A Jal Shakti Abhiyan Perspective**
Organized by
ADITI MAHAVIDYALAYA
9th MARCH 2021

Themes

- Environmental science aspects of water availability and usability
- Chemistry and biology of water systems.
- Water pollution.
- Save river movement, significance of rivers and water flow systems.
- Lake pond, oceanic studies.
- Water purification and availability.
- Economics and commerce of water and water systems.
- Ecology of water.
- Education and awareness of water for human civilization development.
- Water for sustainable development.
- Sustainable Development Goals - Goal 6 (Clean Water and Sanitization) and Goal 14 (Life below Water).
- Jal Shakti policies and implementation for safe use of water and related aspects
