10.2 The SELLER shall arrange a calibration of flow meter as per approved calibration policy of IGL and from NABL Accredited Laboratories, Present Calibration policy is as under:

Sl No	Meter Type	Calibration Frequency
1	All RPD and Turbine	Every 5 years

- i) by using the recording by the check flow meter of the BUYER if installed and accurately registering; or
- ii) if 10.3(i) is not possible, by correcting the error if the percentage of error is ascertainable by calibration, test or mathematical calculation; or
- iii) if neither 10.3 (i) nor 10.3 (ii) is possible, by estimating the volume of GAS delivered by comparison with deliveries during period under similar conditions when the SELLER's meter was registering accurately.

10.4. The period to which the above corrections will apply will be the period during which the SELLER's meter has gone wrong if the same is known or is agreed upon mutually between the parties. If the period is not known the correction shall be made for a period equal to half the time lapse since the date of preceding proving calibration test, provided the correction period does not exceed sixteen (16) days.

At all the times of removal of the flow meter, the Seller shall inform in writing to the Buyer about the reasons for removal of the Flow Meter. In case the Buyer's representative at any stage is absent and/or refuses to sign, it shall be presumed that the Flow Meter has been tampered and the Flow Meter without the signature of the Buyer's representative will be sent for further inspection and/or calibration, as provided hereinafter, by the Seller. However, if all the seals and parts are found to be normal and only calibration results are found to be having deviation from usual, the Flow Meter will not be considered as tampered and only calibration error will be taken into account, as per the provisions of this Contract.

i In case the Flow Meter is found tampered, the following penal actions shall be initiated against the Buyer, which are without prejudice to the other legal rights available to the Seller:

- a) Within reasonable time after the receipt of inspection & calibration report, a show cause notice shall be issued by the Seller to the Buyer to explain why the penal action should not be initiated against the Buyer for tempering of the Flow Meter.

The Buyer shall be liable to pay the meter tampering charges to the Seller for the period of meter tampering.
- e) For ascertaining the period of meter tampering, the Gas drawl data/ data from EVC data as available shall be reviewed. The consumption data (over the previous three months) shall also be compared with consumption recorded just after the replacement of the Flow Meter. The day or time from where Gas drawl has gone below the normal Gas drawl by the Buyer (without any shutdown or otherwise explainable reasons to the satisfaction of the Seller) to the day of replacement of Flow Meter shall be considered as the period of meter tampering.
- f) Once the period of meter tampering is established, then peak flow recorded during three (3) months prior to period of meter tampering shall be taken and that will be treated as quantity of Gas actually consumed by the Buyer during the period of meter tampering. The difference between this peak quantity i.e. Highest per day Gas flow/ quantity as recorded during the previous three (3) months prior to period of meter tampering and the already billed quantity in this period, shall be difference quantity or the short fall quantity, to be charged from the Buyer at Two (2) times the Excess over-drawl quantity (i.e. quantity over and above DCQ) and a claim will be raised by the Seller on to the Buyer accordingly.
- g) However, in case if the gas consumed by the customer is less than three months from the period of tampering then in such cases, actual gas consumption by the customer shall be treated as over and above 20% of DCQ during the period of meter tampering and a claim will be raised by the Seller on to the Buyer accordingly.
- h) The Buyer is also liable to pay the Meter tampering charges which shall be equivalent to 50% of MRS security deposit (as specified in 5.2 above).
- i) Once Gas supply is stopped because of meter tampering, the Seller may consider restoration of Gas supply, only when the Buyer pays the full Meter tampering charges and other charges, calculated as above, and also issues a written apology and an undertaking that such an event of meter tampering shall not be repeated in future. Further, before restoration of supply of Gas, in addition to liquidation of all the dues, the Buyer shall be liable to pay an amount of Rs. 50,000/- (fifty thousand only) as charges for restoration of Gas supply.
- j) For the entire period of disconnection under the Buyer agrees to pay DCQ charges, which shall be calculated as per Article 4.1. The Buyer further agrees that the gas supply shall not be commenced by the Seller till such time the Buyer liquidates the DCQ charges as applicable under this Article.
- k) In case the BUYER refuses to pay the SELLER all losses / penal charges, then the SELLER shall have the right to forfeit the Security Deposit received from the BUYER including right to terminate the agreement as per Article 15.5 of the GSA. Besides the same, the SELLER may also initiate the legal proceedings as per the suitable provisions of the LAW.

Subject: Support for the NSDC Skill training courses

Dear ma'am,

Greetings from Navjyoti India Foundation!

Following your telephonic conversation with Santosh Ji, I'm sending you a proposal letter for our partnership. We would be happy to partner with you. We are seeking partnerships with like-minded NGOs, institutes, colleges, and universities to fulfill our mission of helping marginalized groups of society to become self-reliant

Our Navjyoti India Foundation (NIF) is a premier not-for-profit organization in the country working since 1987, well known worldwide for its commitment to work with marginalized sections of the society and to bring them to attain a dignified quality of life. It was registered as an organization in 1988 by the Magsaysay Award recipient Dr. Kiran Bedi and 15 other like-minded officials of Delhi Police, as a result of the inextricable link that existed between crime and drugs. Our strategy of crime prevention is based on the principle that the surest way to reduce crime is to focus on factors that put individuals at risk.

The Community Colleges at Navjyoti at Karala Northwest Delhi is based on the 4 C model seeking to make its beneficiaries not just competent but conscientious, compassionate, and change-makers as well. An
