

Saksham Pravaah Activity report for FY 2021-22

SAKSHAM PRAVAAH:

Aditi Mahavidyalya- University of Delhi is one of the partner of TISS Saksham Pravaah looking after the project implementation at the Northern Reign of India.

Under the TB control initiatives, Saksham Pravaah works with government agencies, civil society organizations, and healthcare providers to increase awareness about TB, promote early detection and treatment, and improve access to healthcare services. The project also focuses on providing social and psychological support to TB patients and their families for which TISS has signed a MoU with the Government of India (Central TB division) to help the NTEP staff and frontline workers with the required counselling skills.

The year 2021-2022 was the preliminary phase for the National Level Training Programs for which data was provided by TISS to coordinate with the state team for conducting training.
