

## Report on Anti-Ragging Measures and College Performance in 2023

I am pleased to present this report on behalf of the Anti-Ragging Committee. We are delighted to inform you that all measures related to anti-ragging have been diligently fulfilled, and the college has excelled in all parameters related to ragging prevention and student welfare.

### Awareness and Orientation Programs:

We organized several awareness and orientation programs for students at the beginning of the academic year. These programs were designed to educate students about the ill effects of ragging and the consequences of engaging in such activities. Students were made aware of the legal provisions and penalties associated with ragging. The response from the students was highly positive, and they actively participated in these programs.

### Anti-Ragging Committee and Helplines:

The Anti-Ragging Committee was formed well in advance, and its members were carefully selected to ensure the diverse representation of faculty and students. Helpline numbers were provided to all students, and they were encouraged to report any incidents or concerns related to ragging anonymously. The helplines were consistently monitored, and prompt action was taken in response to any complaints received.

### Regular Inspections and Monitoring:

The committee conducted regular inspections of the campus to ensure a ragging-free environment. Surprise checks were conducted to maintain vigilance and deter any potential ragging activities. We are pleased to report that no incidents of ragging have been identified during these inspections.

### Counseling and Psychological Support:

Counseling and psychological support were made available to students who required it. The college has a dedicated team of professional counselors who work to address the emotional and psychological needs of students. This has been particularly effective in creating a positive and supportive atmosphere.

### Collaboration with Local Authorities:

We maintained a strong and cooperative relationship with local law enforcement agencies. This collaboration ensured that any reported incidents of ragging were promptly investigated, and legal actions were taken against the perpetrators.

### Ragging-Free Campus Environment:

Through continuous efforts, the college has successfully maintained a ragging-free campus environment. Students and faculty have cooperated in creating an atmosphere where all individuals feel safe, respected, and free from any form of harassment.

#### Student Feedback and Satisfaction:

Regular surveys and feedback sessions were conducted to gauge student satisfaction and their perception of the anti-ragging measures. The overwhelming response indicated that students feel safe and respected within the college.

In conclusion, we can confidently state that College has excelled in ensuring a ragging-free campus environment. The concerted efforts of the Anti-Ragging Committee, along with the cooperation of the college administration, faculty, and students, have played a significant role in achieving this success.

We would like to express our gratitude for your guidance and support in making a place where education can flourish without the shadow of ragging. We remain committed to our mission and will continue to work towards the holistic development and welfare of our students.
