

Report on Anti-Ragging Measures and College Performance during 2023-2024

I am delighted to present this report on behalf of the Anti-Ragging Committee. We are pleased to inform you that the college has consistently demonstrated excellence in all aspects of student welfare and ragging prevention, as all anti-ragging measures have been meticulously implemented. We conducted numerous orientation and awareness initiatives for students. The purpose of these programs was to inform students about the detrimental effects of ragging and the repercussions of engaging in such activities. The legal provisions and penalties associated with ragging were communicated to students.

Anti-Ragging Committee and Helplines:

The Anti-Ragging Committee was formed well in advance, and its members were carefully chosen to ensure a varied representation of academics and students. All students were given helpline numbers and encouraged to anonymously report any ragging-related occurrences or concerns. The helplines were continuously monitored, and any concerns received were promptly addressed.

Counselling and Psychological Support:

The college offered counselling and psychological support to those who required it. The institution employs a dedicated team of experienced counsellors who try to address students' emotional and psychological needs. This has proven particularly successful in fostering a happy and supportive environment.

Regular Inspections and Monitoring:

The committee conducted regular inspections of the campus to ensure a ragging-free environment. Surprise checks were conducted to maintain vigilance and deter any potential ragging activities. We are pleased to report that no incidents of ragging have been identified during these inspections during 2023-2024.

Collaboration with Local Authorities:

We maintained a strong and cooperative relationship with local law enforcement agencies. This collaboration ensured that any reported incidents of ragging were promptly investigated, and legal actions were taken against the perpetrators.

Ragging-Free Campus Environment:

The college has effectively ensured a campus environment free from ragging through constant efforts. Students and faculty have collaborated to establish an environment in which all individuals feel secure, valued, and free from any form of harassment.

Student Feedback and Satisfaction:

Regular surveys and feedback sessions were conducted to gauge student satisfaction and their perception of the anti-ragging measures. The overwhelming response indicated that students feel safe and respected within the college.

In conclusion, we can confidently state that the College has excelled in ensuring a ragging-free campus environment. The concerted efforts of the Anti-Ragging Committee, along with the cooperation of the college administration, faculty, and students, have played a significant role in achieving this success.

We would like to express our gratitude for your guidance and support in making a place where education can flourish without the shadow of ragging. We remain committed to our mission and will continue to work towards the holistic development and welfare of our students.

Student Feedback and Satisfaction:

We conducted regular surveys and feedback sessions to assess student satisfaction and perceptions of the anti-ragging efforts. The overwhelming majority suggested that students felt safe and valued at their campus. To summarise, we can confidently assert that the College has excelled in maintaining a ragging-free campus atmosphere. The Anti-Ragging Committee's concerted efforts, as well as the cooperation of the college administration, staff, and students, contributed significantly to this success. We would like to express our gratitude to all for creating an environment where education can thrive without the shadow of ragging. We are devoted to our mission and will continue to work towards the holistic development and welfare of our students.

Prof. Hema Gupta

Convenor

Anti-Ragging Committee.
